

Quality Policy

The present company NESST S.R.L. in the person of its sole director and legal representative Dr. Giuseppe Prencipe

Notify

to strengthen and improve its market position in the manufacture of composite parts for experimental material use in aeronautics, using 3D printing, aims to develop a **Quality Management System** according to ISO 9001 and EN9100, and to **continuously improve it**.

Management Representative for Quality will be Dr. Francesco Lucia.

Quality Management System Manager is Dr. Francesco Lucia.

The basic objectives of the Management System are:

1. **customer satisfaction.**
2. **compliance with current regulations.**
3. **growth in company size**, to become a point of reference in the industrial development of southern Italy
4. excellence in the production of composite parts for experimental use of materials in aeronautics, by means of 3D printing
5. punctuality and completeness of the services offered
6. the **efficiency** of internal **processes**.
7. the achievement of **EN 9100 certification** of the system itself, and its continuous improvement.
8. the commitment to the **periodic review of this policy**, based on the results of the improvement
9. the provision of the **necessary economic**, human and equipment resources.

Remembering that these objectives are aimed at customer satisfaction, but also at the creation of new job opportunities, we trust in everyone's full cooperation.
